December 1, 2017

(Randolph, N.J.)—MR.RACE OIL®, the fastest growing race oil brand, is proud to announce the introduction of it's full-line of racing oils for drag racing, oval track, road course and performance boat racing.

These professional racing oils are specifically engineered for each form of racing. Their proprietary next generation anti-wear and anti-friction technologies protect against wear and deposit formation, while simultaneously helping to liberate maximum power from the racing engine.

The key benefits for all of the offerings in the MR RACE OIL® racing oil line are:

- Full synthetic, shear stable formula
- Proprietary technology protects DLC (Diamond Like Carbon) and other surface coatings
- Proprietary technology helps reduce harmful effects of fuel dilution from gasoline, racing gasoline, nitromethane and racing alcohol

All MR. RACE OIL® Racing Oils are sold in 1-Quart 6-Packs and are offered in the following viscosity grades:

MRO Drag Racing Oils	MRO Oval Track Racing Oils	MRO Road Course Racing Oils	MRO Marine Racing Oils
SAE 0W-20	SAE 0W-20	SAE 5W-30	SAE 30
SAE 0W-30	SAE 5W-30	SAE 5W-40	SAE 40
SAE 5W-40	SAE 5W-40	SAE 5W-50	SAE 50
SAE 5W-50	SAE 5W-50		

In addition to its new, 14 sku racing oil line, MR. RACE OIL® produces and sells a full range of engine assembly products for racing and street application, including its innovative Engine Assembly Gel, a High Performance Roller Bearing Lube and an Extreme Pressure Lube. The Cam-shield® flagship brand markets Cam-shield® Premium ZDDP Oil Treatment and Cam-shield® Camshaft Assembly paste. MR. RACE OIL®, a division of Cam-shield® Lubricants is headquartered in Randolph New Jersey. MR. RACE OIL® and Cam-shield® Lubricant products are all engineered and manufactured in the United States and are sold globally.
